NOTICE FOR WATER RATE INCREASE

Dear Customer,

This notice is to inform you of the new rate for water services that will go into effect March 2025 (rates are listed below). As costs throughout the industry continue to rise, South Grant Water is committed to managing these costs and staying efficient. These rate adjustments will help ensure the reliability and affordability of our water services.

Since South Grant Water is a nonprofit corporation that does not receive taxes, these costs must be recovered through monthly billing. The 2025 rate adjustments are based on a cost of service analysis to ensure that all customers pay their proportionate share of the costs to provide services. This increase is vital to maintain existing system sustainability and to meet future demands, as per the recommendations of the state of Louisiana.

We appreciate your understanding as we strive to provide you with the best water possible and ensure that our community water system remains sustainable.

Best Regards,

Board of Directors
